IT – Longarine Brio celebra le antiche botteghe artigiane che, con maestria, arricchivano la pasta cementizia con pigmenti naturali finemente macinati. La tecnologia di Marca Corona porta sulla superficie satinata di Longarine Brio, un delicato chiaro-scuro di grande profondità. È la natura che ispira le 9 colorazioni della collezione: il grigio della corteccia della betulla, il nero delle more, il blu delle bacche di ginepro, il verde intenso delle foglie di mirto, il verderame opaco dell'agave, il delicato bianco delle camelie, le sfumature ciano del fiordaliso, le morbide variazioni del pimento e dell'avena.

EN – Longarine Brio celebrates the ancient artisan workshops that, with their skills, enriched cementitious paste with finely ground natural pigments. Marca Corona's technology brings onto the satin surface of Longarine Brio, a delicate chiaroscuro of great depth. Nature inspires the 9 colorations of the collection: the gray of birch bark, the black of blackberries, the blue of juniper berries, the intense green of myrtle leaves, the matte verdigris of agave, the delicate white of camellias, the cyan shades of cornflowers, the soft variations of paprika and oats.
